Technology Stack

Web Development - HTML5, CSS3, Tailwind, JavaScript, TypeScript, ReactJS, Redux, NextJS, Firebase

Projects

Enterprise Website: Frontend Focused with ReactJS (Freelance Project: WIP) - [Link](#)

- Amderon Enterprise is a professionally designed website for a law consultation firm, showcasing their expert legal services and personalized solutions. The site features information about practice areas, attorney profiles, and client testimonials, ensuring easy navigation for potential clients.

Full-Stack Twitter-Type Web Application with React, Redux, NextJS, and Firebase - [Link](#)

- Engineered a Twitter-inspired web application leveraging HTML5, CSS3, JavaScript, TypeScript, ReactJS, Redux, NextJS, and Firebase. Key features included user authentication, tweet management (creation, deletion), real-time updates, search functionality, and user profiles, replicating core Twitter functionalities with modern web development technologies.

Full-Stack Ecommerce Web Application with NextJS (Freelance Project) - [Link](#)

- Developed a full-stack e-commerce platform from scratch using Next.js, TypeScript, Tailwind CSS, Firebase, and Redux. Implemented robust features including product catalogue, shopping cart, user authentication, and payment integration. Optimized for performance and SEO.

Professional Experience

Virtual Internship Project, Frontend Simplified (March 2024) [Link](#)

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels.
- Processed API to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilised Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

Advanced Virtual Internship, Frontend Simplified (May 2024) [Link](#)

- Completed the Frontend Simplified Virtual Internship project, developing a feature-rich web application using NextJS, TypeScript, Firebase, and Stripe integration.
- Implemented user authentication, dynamic content display, audio playback and payment functionality, showcasing full-stack web development capabilities.

Education

Indus University, Bachelors in Computer Application (July 2022 – June 2025)

- Building a strong foundation in Programming, Software Development, and Database Management.
- Relevant coursework: Data Structures, Algorithms, OOP and Android Development.

Frontend Simplified (June 2023–May 2024)

- Mastered skills in creating and maintaining modern web applications, from user interfaces to complex backend logic.
- Gained hands-on experience with industry-standard tools and technologies.

Certifications

Meta's Professional Frontend Developer (February 26, 2024) [Link](#)

- Proficient in a wide range of frontend development skills, as validated by Meta.
